SUBJECT INDEX

Abstinence, alcohol 169
Addictive behaviours, moderation training 169
Adjective Check List, pathological gamblers 30
Adult Children of Alcoholics 136
Aggressive behaviour, alcohol abusers 131
Agoraphobia, cultural differences 209, 218, 222
Alcohol behaviour research 53, 59
  barriers to utilization 145–164
  biological markers of consumption 105
  classical conditioning 79
  collateral reports 98
  craving 79,82
  expectations 75
  genetic/familial factors 83
  individual differences 84
  interpersonal contexts 127–143
  interpersonal skills training 137
  operant conditioning 73
  physical dependence 82
  political realities 165–171
  self-reports, reliability and validity 94
  tension reduction theory 77
  treatment outcome evaluation 91–125
  vicarious learning 74
Alcoholics Anonymous 55, 60
Alcoholism
  markers and early identification 109
  progressivity 63
  self-reports of consumption 94
Animal fears 218, 222
Anti-Drug Bill 165
Anxiety
  alcohol use and abuse 77
  developmental interactionism 196
  national differences 215
Auditory evoked potentials, alcoholics 134
Aversion relief, pathological gamblers 40

Behaviour
  environmentalism 174
  heredity × environment interactionism 177
Behaviour therapy, alcoholics 53
  barriers to utilization 145–164
  classical conditioning 79
  interpersonal skills training 137
  political realities 165–171
  self-report 94
  vicarious learning 74
Behaviour therapy, developmental interactionism 192
Behaviour therapy, pathological gamblers 34
Behavioural embryology 187
Behavioural self-control training, problem drinkers 146, 169
Behavioural systems methodology 197
Blood alcohol concentrations 97, 106, 113, 115
Bodily injury, death and illness fears 218, 222
Breath alcohol testers 107, 113

Child functioning and parental depression 1–20
Children, effects of alcoholism 134, 135
Classical conditioning 175
  alcohol use and abuse 79
Coercive cycles of interaction 10
Cognitive behaviours, children, parental depression 1–20
Community reinforcement, alcoholism 137
Comparative–developmental psychology 186
Compulsiveness, gambling 23
Conditioned aversion, pathological gamblers 38
Conditioned drug-compensatory reactions, alcohol 80, 84
Conditioning 175
  alcohol abuse 69
Controlled drinking 167
Craving, alcoholism 80, 82
Cross-national study of self-reported fear 207–245
Cue-exposure treatment, alcoholism 81
Cultural differences in self-reported fears 207–245

Defensivity, cross-national differences 228
Depression
  gambling 24
  parental, child functioning 1–20
Developmental interactionism 173–205
  behaviour therapy 192
  confluent influences 180
  principles 191
Diathesis–stress theory 178
Dimensional identity 211
Disulfiram 138

Drinking, self-report and biological measures 91–125
Drinking problems 54
Drug abuse legislation 165
Drunk drivers 153

Edwards Personal Preference Schedule, pathological gamblers 30
Electric shock treatment, pathological gamblers 34
β-Endorphin, plasma levels in gamblers 33
Environment, alcohol abuse 68
Environmentalism 174
Ethnic factors in personality research 229
Evolution, behaviour 184
Evolution of scientific thinking 180
Expectations, alcohol use and abuse 75, 131
Externalizing problems, children, parental depression 1–20
Eysenck Personality Inventory, pathological gamblers 25, 30

Family, impact of drinking problems 132, 134
Family-involved alcoholism treatment 137
Family socialization 11
Fear conditioning 179
Fear, self-reported, cross-cultural studies 207–245
Fear Survey Schedule 211, 217, 218, 231
Field thinking 183

Gamblers Anonymous 41
Gambling, pathological 21–49
  behavioural analysis and treatment 34
  diagnostic signs and symptoms 21
  epidemiology 24
  group therapy 41
  psychodynamic analysis and treatment 33
  psychometric analysis 25
  self-help groups 41
  sub-varieties 23
  treatment programs 42
Gender
  alcoholism 85
  child functioning and family stress 11
  self-reported fears 221
Genetic predisposition to alcoholism 83
Glutamic-oxaloacetic transaminase, indicator of alcohol use 107, 115
γ-Glutamyl transpeptidase, indicator of alcohol use 107, 108, 110
Group Health Cooperative 170
Group therapy, pathological gamblers 41

Habit 174
Health Maintenance Organizations 170
Health promotion 55
Heredity × environment interactionism 177
High-density lipoproteins, indicator of alcohol use 108, 115

Imaginal desensitization, pathological gamblers 40
Impulsiveness, gambling 22, 31
In-patient treatment
  alcoholics 148
  pathological gamblers 42
Instinct 174
Integrated field 180, 191
Intelligence, inheritance 180
Internalizing problems, children, parental depression 1–20
Interpersonal aspects of drinking problems 127–143
Interpersonal skills training, alcoholics 137
Intoxication research 68
Irrational fears 213
Israeli Fear Survey Inventory 210

Learning, developmental interactionism 192
Learnism 175
Life-span developmental psychology 188

Marital therapy, alcoholics 138
Marriage, alcoholics 132, 136
Masculinity–femininity 236
Maternal depression, child behaviour 10, 12
Mean corpuscular volume, indicator of alcohol use 108, 111, 115
Michigan Alcoholism Screening Test 95, 99, 104
Million Multiaxial Clinical Inventory, pathological gamblers 32
Minnesota Multiphasic Personality Inventory, pathological gamblers 25, 31
Modeling, alcohol use and abuse 74, 129
Moderation training 169
Mood, parental and child functioning 1–20

National differences in self-reported fears 207–245
National Institute on Addiction 166
National Institute on Alcohol Abuse and Alcoholism 60, 94, 154, 166
National Institute on Drug Abuse 166

Netherlands, students self-reported fears 217, 220
Neuroticism, national differences 214, 236

Ontogenetic evolution 185
Operant conditioning 176
  alcohol use and abuse 73
Organism–environment interactionism 196

Parental depression and child functioning 1–20
Pathological gambling 21–49
  behavioural analysis and treatment 34
  diagnostic signs and symptoms 21
  epidemiology 24
  group therapy 41
  psychodynamic analysis and treatment 33
  psychometric analysis 25
  self-help groups 41
  sub-varieties 23
  treatment programs 42
Personal Orientation Inventory, pathological gamblers 32
Phobias, cultural differences 208, 213
Phylogenetic evolution 184
Physical dependence, alcohol 82
Pluralistic therapy 197
Preventive intervention, alcohol abuse 148
Problem drinkers 54, 64, 66
  interpersonal contexts 129
Progressivity, alcoholism 63
Prosocial behaviours, children, parental depression 1–20
Psychodynamic treatment, pathological gamblers 33
Psychological evolution 185

Quantity–Frequency index 102, 117

Race, personality research 229
Reductionism 189
Reinforcement, alcohol use and abuse 74
Relapse, alcoholics 80
Rosenzweig's Picture Frustration Study, pathological gamblers 30
Rotter's Internal–External Locus of Control Test, pathological gamblers 30, 31

Scapegoating 12
Self-awareness model of alcohol use and abuse 78
Self-control, gambling urges 39
Self-determination, alcohol abusers 67
Self-efficacy, alcohol use and abuse 77, 81
Self-management training, problem drinkers 146, 169
Self-Monitoring Scale 234
Self-report, alcoholics
  reliability and validity 94
  treatment outcome 113
Self-reported fears, cross-national 207–245
Severity of dependence, alcohol 68
Sex differences, self-reported fears 221
Sexual fears 218, 222, 224
Social fears 218, 222
Social learning theory, alcohol use and abuse 74
Social phobias, cultural differences 209
Socialization, drinking behaviours 129
Socially desirable responding, cross-national differences 228
Spouse involvement in alcoholism treatment 138
Stress
  drinking behaviour 129
  parental, child behaviour 9
Stress-reducing effects of alcohol 77, 85
Sweat patch, alcohol consumption 107
System perspective 190

Television, drinking behaviour 75
Tension reduction expectancies, drinking behaviour 76
Tension reduction theory, alcohol use and abuse 77
Thematic Apperception Test, pathological gamblers 30
Time-Line Follow-Back Drinking Behaviour Interview 102, 117
Tolerance, child behaviours 9

U.K., students self-reported fears 217, 220
University students, self-reported fears 217
Unlearned behaviour 175
U.S., students self-reported fears 217, 220
Utilization, behavioural alcohol treatment 145–164

Vicarious learning, alcohol use and abuse 74
Violent behaviour, alcohol 131
Volunteers, self-reported fears 227

Withdrawal, alcohol 80
Women, alcohol and social behaviour 131
